

The Bottom Line

The official newsletter of **Craig Brooklyn** and **Bottomline Entertainment**
A publication of Kokopelli Management.com

February 2009

Vol. 91

Welcome to the first newsletter of the year from **Bottomline Entertainment!**

It's important to us that you know just exactly who we are and what we do. What makes **Bottomline** the bottom line?

It's very simple. We are the one-stop source that works hard to provide for all your entertainment requirements. We supply expert and highly-skilled DJ Services; we have a recording studio, audio-engineer specialists on staff, DJ courses and much more.

Bottomline Entertainment is also an important point of referral that can help you access resources and help you move in the right direction for the right price. For instance, if you are a recording artist needing other services like video, or photos for your album cover, we have the best contacts to help you get that shot you so deserve.

That is why we are the **Bottomline!** We have the knowledge and experience to direct you in making the very best choices.
